

Treatment with CAR T-cell therapy

TREATMENT DISCUSSION GUIDE

THIS GUIDE WILL HELP YOU MAKE THE MOST OF YOUR CLINIC VISIT

CAR T-cell therapy is a groundbreaking immunotherapy for Relapsed/Refractory B Cell Non-Hodgkin Lymphoma (B-NHL). Patient selection for CAR T-cell therapy will be performed by the physician based on several factors such as disease sub type, performance status and biological fitness.

Make informed decisions!

Among several treatment options, particularly with new ones, it is essential to get all the required information to make the right decision. You may have several questions about CAR T-cell therapy, what's involved, and whether it's an option for you or someone you're caring for.

Start the conversation with your healthcare team to see if CAR T-cell therapy is right for you. Ask these questions to your doctor about CAR T-cell therapy. Together, you and your doctor can make the right decision.

Understand CAR T-cell therapy

- What is CAR T-cell therapy?
- How does it work?
- How is it different from the other conventional treatments (such as stem cell transplant, radiation, or chemotherapy)?
- Are all CAR T-cell therapies similar?

Find out if CAR T-cell therapy is an appropriate treatment option for you

- Based on my treatment history, is CAR T-cell therapy an option?
- What needs to be considered for CAR T-cell therapy?
- If CAR T-cell therapy is not an option at present, could it be in the future?
- What is the published clinical evidence for CAR T-cell therapy?
- What should I expect during hospitalization for CAR T-cell therapy?

Familiarise yourself with the treatment process

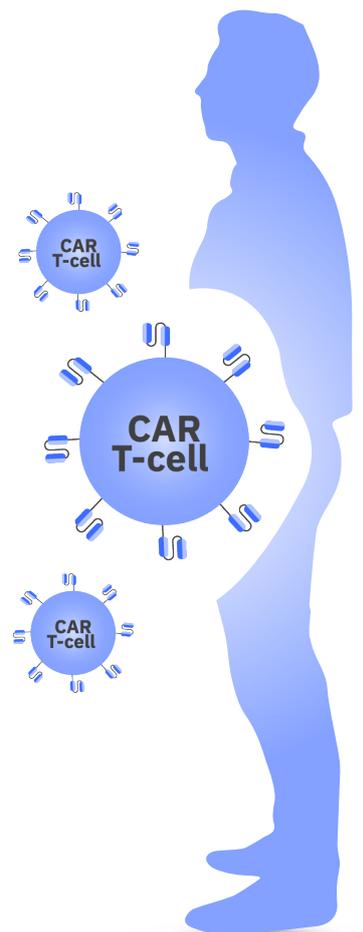

- What are the steps involved with CAR T-cell therapy?
- How long does each step take?
- How much will my family and friends need to be involved with this treatment?
- What kind of support is available to help me or my care partner throughout the process?
- Where can I access additional resources on CAR T-cell therapy?

Prepare for CAR T-cell infusion

- How long does it take for the CAR T-cells to be made?
- Is any treatment given prior to the CAR T-cell infusion?

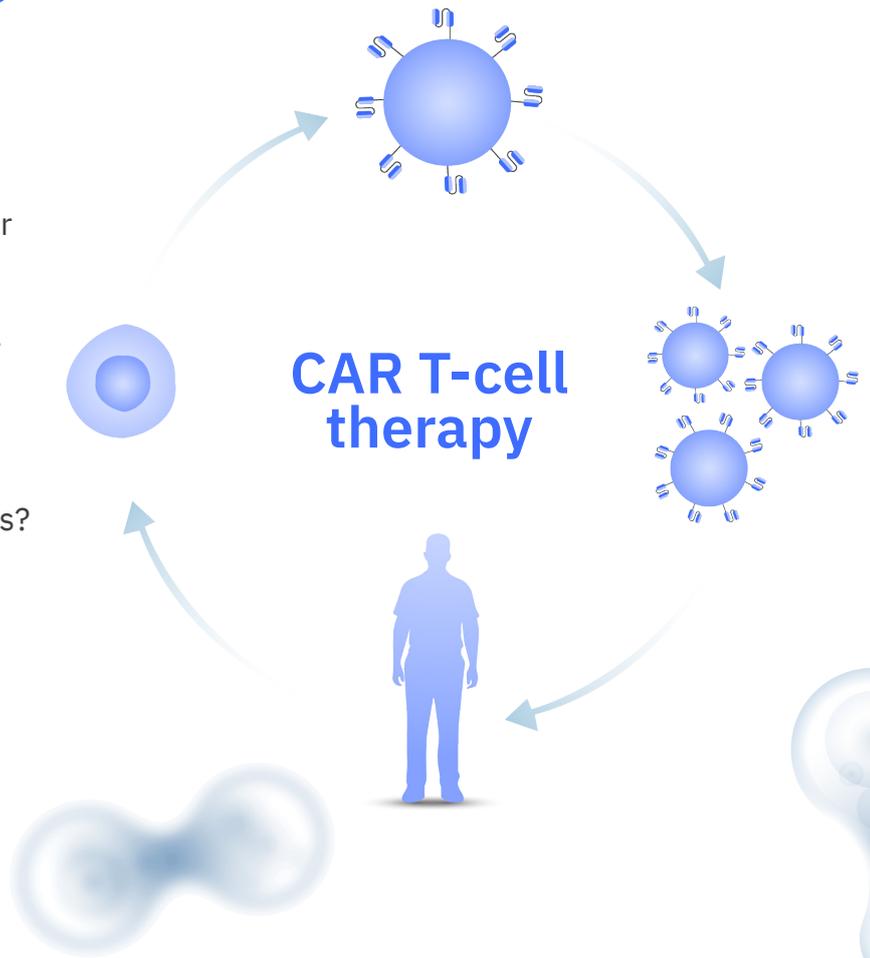

Process of receiving CAR T-cell infusion

- How long does the CAR T-cell infusion take?
- Where would I receive CAR T-cell therapy? If it is at the hospital, how long do I have to stay?

Learn what happens after CAR T-cell therapy

- What outcomes can be expected after CAR T-cell therapy?
- What is the follow up after CAR T-cell therapy and how long?
- What are the possible side effects?
- Are there ways to manage side effects?
- How long do the side effects usually last?
- Are some side effects more serious than others?

Bring this list of questions with you to your next doctor's appointment.
